Muhammad Anfal

Full Stack Software Engineer

anfal.dev.12@gmail.com | +92 310 7855785 | Lahore, Pakistan | linkedin.com/in/muhammad-anfal | github.com/Axfal

CORE SKILLS

BACKEND & APIS

Python · FastAPI · Django · DRF · REST API Design · WebSockets · Celery · NGINX · Firebase · Supabase

AUTHENTICATION & SECURITY

JWT Auth · OAuth2 · SSO / SAML

AI / LLM

LLM API Integration · Prompt Design · Structured Output Parsing · Third-Party AI APIs

FRONTEND

React.js · JavaScript (ES6+) · HTML5 · CSS3 · Tailwind CSS · Flutter & Dart · PWA · Google Maps API

DATABASES & SEARCH

PostgreSQL · MySQL · SQLite · Elasticsearch · OpenSearch · Redis · Memcache · Query Optimization

MESSAGING & STREAMING

AWS SQS · Kafka · RabbitMQ

MONITORING & OBSERVABILITY

Sentry · Prometheus + Grafana · ELK / EFK · OpenTelemetry

CLOUD & DEVOPS

AWS (EC2, S3, RDS, IAM) · Docker · GitHub Actions · CI/CD · Linux

TOOLS & PRACTICE

Git & GitHub · Postman · Code Reviews · Testing · Agile · Claude · Codex · Trae · Kiro

EDUCATION

BS Computer Science
University of Sargodha, Pakistan
Apr 2021 – May 2025
CGPA 3.65 / 4.00

SOFT SKILLS

Problem Solving · Analytical Thinking · Decision Making · Team Player · Collaboration · Leadership & Ownership · Communication · No-Giving-Up Attitude

CERTIFICATES & AWARDS

Employee of the Month
Dark Bytes
August 2026

Certificate of Appreciation
University of Sargodha, Pakistan

PROFILE

Full Stack Software Engineer with **2+ years** of experience building production applications with **Python (FastAPI, Django/DRF)** and **React.js**, backed by **PostgreSQL** and AWS. Hands-on with integrating **LLM APIs** into real products — prompt orchestration and structured output parsing. Owns features end to end, from data model and REST API to responsive UI and deployment.

EXPERIENCE

Software Engineer
Jan 2026 – Present
Dark Bytes

- Build full-stack features pairing **Python (Django, FastAPI) REST APIs** with **React.js** interfaces for production workloads.
- Deploy and run services on **AWS (EC2, S3, RDS, IAM)** with **Docker**; contribute to CI/CD pipelines and deployment automation.
- Optimize **PostgreSQL** queries, schema design and **Celery/Redis** background processing for high-traffic endpoints.
- Collaborate with cross-functional teams and stakeholders from scoping to release.

Associate Software Engineer
Jan 2025 – Dec 2025
IT Genesis

- Built and maintained **REST APIs** with Python, Django & DRF, integrating Firebase Auth, Firestore and Cloud Messaging.
- Developed cross-platform **Flutter** apps consuming backend APIs, with real-time data sync over **WebSockets**.
- Shipped **Google Maps** location features to production using clean architecture across mobile and backend.

Python/Django Intern
Oct 2024 – Dec 2024
Developers Hub Corporation

- Built and tested Django REST endpoints (CRUD, validation, serialization) on MySQL/PostgreSQL models.
- Worked in an agile team using Git workflows and code reviews.

SELECTED PROJECTS

CoinSnap — AI Coin Identification App
Flutter · Python · FastAPI/Django · LLM Vision · Firebase Auth

- Built an **LLM vision pipeline** returning structured coin details (history, price, weight, size) from photos.
- Flutter client with email/password and Google Sign-In on a Django/FastAPI backend.

AI Health Assistant
Python · FastAPI/Django · LLM APIs · Prompt Engineering

- LLM assistant turning natural-language health queries into **structured, contextual guidance**; designed the prompt-orchestration and API layer.

Trading Platform — Real-Time Trading App
React.js · Django · DRF · PostgreSQL · JWT

- Built a React + DRF platform for real-time market data, trade execution and portfolio tracking with secure JWT auth and optimized transaction handling.

Enterprise CRM
React.js · Django · DRF · PostgreSQL · RBAC

- Centralized customer interactions, sales pipelines and support tickets with role-based access control and scalable REST APIs.

Bonope POS — Cloud Point of Sale
React.js · Django · DRF · PostgreSQL · Offline Sync

- Built sales, inventory, barcode scanning and offline sync with secure authentication and optimized database operations.

Live Chat System
Django Channels · WebSockets · Redis · PostgreSQL · FCM

- Real-time 1:1 and group chat with presence and typing indicators, built for low-latency delivery and horizontal scale.
