EDUCATION

University of Sargodha, Pakistan

April 2021 – May 2025

Bachelor of Science in Computer Science - 3.65/4.00

SKILLS

Frontend Development : HTML5 | CSS3 | Tailwind CSS | Responsive Design | Flutter & Dart | Google Maps Integration | Push Notifications | MVVM Architecture | Bloc & Provider State Management

Backend Development : Python | Django | Django REST Framework (DRF) | FastAPI | RESTful API Design | Authentication & Authorization (JWT, Sessions) | WebSockets | Payment Gateway | ORM & Query

Optimization | Celery (Background Tasks) | Redis (Caching & Queues) | Firebase

Databases : MySQL | PostgreSQL | Database Design & Optimization | Hive | SQLite

Cloud & DevOps : IAM | S3 | EC2 | RDS | Docker | Linux (Ubuntu)

Tools & Version Control: Android Studio | Postman | Pycharm | Git & GitHub

WORK EXPERIENCES

Dark Bytes – Associate Software Engineer

Jan 2026 – Present

Built scalable backend systems using Python, Django, and FastAPI, focusing on REST APIs, authentication, and optimized database performance.

IT Genesis – Mobile Application Developer

Jan 2025 – Dec 2025

Developed cross-platform mobile applications using Flutter with clean architecture, state management (Provider/Bloc), and seamless API integrations.

PROJECTS

AI Health Assistant – AI-Powered Healthcare Support Platform [🔗](#)

Developed using Python and Django with Gemini API integration to deliver real-time, AI-driven health insights. Ensured secure data handling and scalable backend architecture.

Mailix – Email Automation & Scheduling Platform [🔗](#)

Built with Python and Streamlit to enable bulk email sending and scheduled messaging. Designed a clean UI with efficient backend processing for reliable task execution.

ThinkMatte – Medical Learning & Education App [🔗](#)

Created a Flutter-based app for medical students with a Django backend, providing structured content and seamless API integration. Focused on responsive design and smooth user experience.

eHomes – Mobile E-commerce Shopping Platform [🔗](#)

Developed a full-stack E-commerce app using Flutter and Django, supporting product browsing, authentication, and order management. Emphasized performance, scalability, and user-friendly UI.
